### COMBINED TABLE

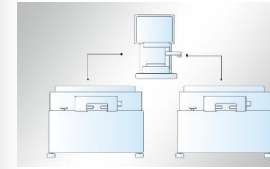

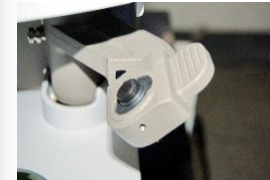

***New products  
launched in 2015***

- Refine design, excellent workmanship, provides you comfortable optometry environment.
- Equipped with voiceless lifting chair of high quality,
- Table with 90 degree rotation, is more convenient for entrance.
- Lifting arm, is more suitable for clients of all heights,

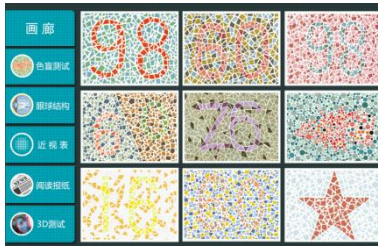

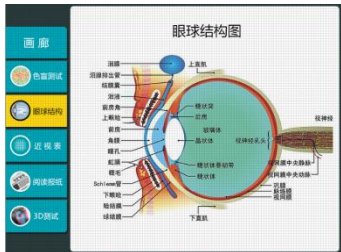

**ALE1000**  
**ST 1200**

- Main edger is equipped with high power motor of 400w, more powerful and faster during edging.
- Fine wheels with doable use, can process lens in CR, Glass , PC and other materials.
- Blocker with rotating handwheel, makes it easier for placing blocks.
- Combination of optical tracer and blocker, space saving and simple operation process.
- Each optical tracer can be connected to several edges, more efficient for edging lens.
- Touching screen makes the process more intuitive and simple.
- Photo scanning provides you with clear shape of frames quickly.

***New products  
launched in 2015***

## VT-700

- 10 –inch higher-resolution screen, brand new button layout , easy operation with larger buttons.
- One click for “HELP” „private teacher is always with you.
- Indicator light in the jaw holder keeps you aware of tested person’s situation anytime.
- Multifunctional rotating handwheel realizes not only the change of degrees but also quick shift of the functions.

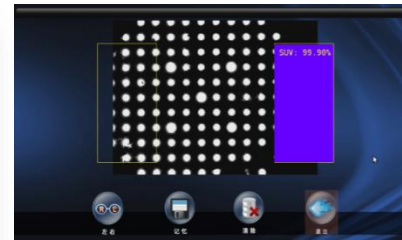

**New products  
launched in 2015**

## ACP-7

- Additionally distributed in the remote control, makes it easier for operation
- Stronger remote- control signal and more sensitive icons.
- A esthetically pleasing design provides you comfortable optometry environment
- Excellent workmanship guarantees the good quality

***New products  
launched in 2015***

## LM-700

- Using measurement of Hartmann theory, hundreds of measuring points makes the measurement easy and accurate.
- Digital PD ruler, makes it easier to measure pupil distance and height
- Distribution measurement present you degree distribution of the lens, no problem in identifying the quality of the lens.
- Touch key-press, concise and doable
- Printer of two-dimension code, data will be acquired and saved easily.

***New products  
launched in 2015***

**Thank YOU!**
